CRP Industrial Names Stephen Johns as Director of Business Development for High Pressure Products

Cranbury, NJ... CRP Industrial, a division of CRP Industries Inc. and full line supplier of Reinflex high-pressure thermoplastic and industrial hoses and precision high-speed motors, has appointed Stephen Johns as Director of Business Development. In this position, Stephen will be responsible for leading and directing activities for CRP Industrial's recently released Reinflex Ultra High Pressure Products line. His primary focus will be expanding the market share of CRP Industrial's waterblast, waterjet industries, and high pressure hydraulics markets, while expanding the program into new industries such as oil and gas production and pressure testing, among others.

In making the announcement Scott Shea, CRP Industries Chief Operating Officer, noted, "Stephen joins our organization with decades worth of experience in our key business sectors. His expertise in the high pressure products market will not only ensure a seamless transition into his new role, but also will help him to make an immediate contribution to the growth of our business."

Before joining CRP Industrial, Stephen worked for Nudraulix, Inc as the Director of Sales and Marketing. In this position, Stephen supported multiple business units, including Oil & Gas, Marine, Aerospace, and Construction. Prior to Nudraulix, Inc, Stephen spent three years with Stacey Supply, serving as High Pressure Products Sales Manager.

Stephen began his career with Parker Hannifin Corporation where he served the company for 16 years in a variety of key roles including Business Unit Manager and Business Development Manager, Energy Products Division, Product Sales Manager, Parflex Division / Polyflex Business Unit, and Connector Territory Manager / Applications Engineer / TOPS Specialist.

Stephen holds a Bachelor of Mechanical Engineering degree from Auburn University, where he was Cooperative Education student and a member of the American Society of Mechanical Engineers. He also co-authored a white paper entitled "Recommended Practices for the Use of High Pressure Hose," which was published by WJTA JetNews Industry.

More information is available at <http://www.crpindustrial.com>

CRP Industrial is a division of CRP Industries Inc., one of NAFTA's largest suppliers of specific industrial accessories and applications, and has been a proven partner to the North American industrial hose market for more than 30 years, specializing in custom orders for high-pressure thermoplastic hose.

The group consists of three diverse specialty product brands: Reinflex high-pressure thermoplastic and Teflon® hoses, Perske precision high-speed motors, and Tudertechnica fluid transfer hoses. CRP can fabricate and ship an order in as little as 24 hours.
